

March 2015 - We have had some chicks in school for two weeks leading up to Easter. The children have been very excited watching them hatch and looking after them as they have grown. They have done some great work about the chicks too.

When they got bigger we could let them out in the classroom. We had to keep a close eye on them!

We really enjoyed looking after the chicks. We had to be very quiet and very careful when we held them.

What a great experience for everyone!
