

Class 2 Autumn term – 2nd half

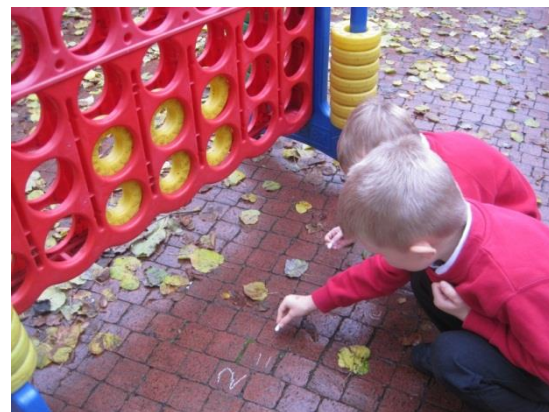

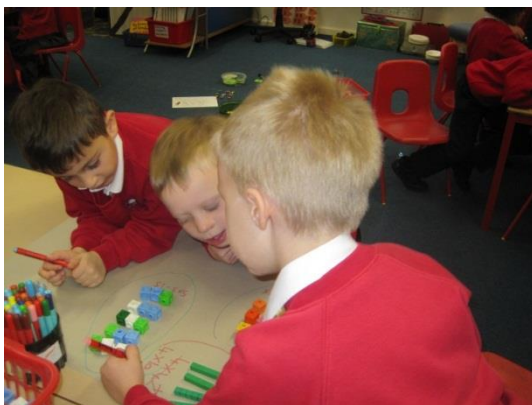

In maths we have been learning about measuring length.

We know about centimetres (Cm) and metres (m). We can use a ruler.

We learned about multiplication. We have used repeated addition and arrays.

In literacy we have learned all about the Great Fire of London.

We made houses and then set fire to them in the playground. It was very exciting!

We worked in groups to sequence the story. We made models and wrote captions.

We used drama to recreate scenes from the Great Fire.
